REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The step (b) of the claimed process has established the novelty and unobviousness of the claimed process. The use of water instead of the prior art aqueous base to wash the reaction product of the step (a) has the benefit of avoiding the formation of sodium salts which generally causes problems in subsequent process steps.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
